32.503-7

ratio factor computed under subparagraph (1)(ii) above.

- (iii) The costs applicable to items delivered, invoiced, and accepted shall not include costs in excess of the contract price of the items.
- (3) The contracting officer may use audit assistance, technical services, management reports, and other sources of pertinent data to evaluate progress payment requests. If the contracting officer concludes that the contractor's figures in the contractor's progress payment request are not correct, the contracting officer shall—
- (i) In the manner prescribed in paragraph (4) below, prepare a supplementary analysis to be attached to the contractor's request;
- (ii) Advise the contractor in writing of the differences; and
- (iii) Adjust all further progress payments in accordance with paragraph (1) above, using the contracting officer's figures, until the difference is resolved.
- (4) The following is an example of the supplementary analysis required in paragraph (g)(3) of this subsection:

Factored costs of items

delivered*

Recognized costs applicable to undelivered items (\$2,249,100-750,000) 1,499,100 *This amount must be the same as the contract price of the items delivered.

[48 FR 42328, Sept. 19, 1983, as amended at 52 FR 30077, Aug. 12, 1987; 54 FR 5056, Jan. 31, 1989; 54 FR 48989, Nov. 28, 1989; 64 FR 72451, Dec. 27, 1999; 65 FR 16280, Mar. 27, 2000]

32.503-7 [Reserved]

32.503-8 Liquidation rates—ordinary method.

The Government recoups progress payments through the deduction of liquidations from payments that would otherwise be due to the contractor for completed contract items. To determine the amount of the liquidation, the contracting officer applies a liquidation rate to the contract price of contract items delivered and accepted. The ordinary method is that the liquidation rate is the same as the progress payment rate. At the beginning of a contract, the contracting officer must use this method.

[65 FR 16280, Mar. 27, 2000]

32.503-9 Liquidation rates—alternate method.

- (a) The liquidation rate determined under 32.503–8 shall apply throughout the period of contract performance unless the contracting officer adjusts the liquidation rate under the alternate method in this 32.503–9. The objective of the alternate liquidation rate method is to permit the contractor to retain the earned profit element of the contract prices for completed items in the liquidation process. The contracting officer may reduce the liquidation rate if—
- (1) The contractor requests a reduction in the rate:
- (2) The rate has not been reduced in the preceding 12 months;
- (3) The contract delivery schedule extends at least 18 months from the contract award date:
- (4) Data on actual costs are available (i) for the products delivered, or (ii) if no deliveries have been made, for a performance period of at least 12 months;

750,000
